Wu Shu class (for Red, Brown and Black belt)

August 13, 2021 (Friday)
Time: 7 - 8 pm.
Cost: Paid by Wang's Martial Arts.

Tai Chi Class (for Red, Brown & Black Belt)

August 13, 2021 (Friday)
Time: 5 - 6 pm.
Cost: Paid by Wang's Martial Arts.

Guest Instructor; Master Jia

The health and safety of everyone is of great importance to us, below are the measure we have implemented and will continue to practice until further notice.

- Any and all student companion must remain in their vehicle
- Temperatures will be checked upon entry
- Everyone is required to wear a mask
- Social distancing (6 ft apart) will be practiced at all times, including class time
- All students are required to wash their hands prior to and after class
- We will be using disinfectant wipes periodically to wipe down doorknobs and door handles.

Parents:
Please remind students to place their belongings inside the cubicles. We are not responsible for any damages. Thank you.

Paul B. Greenwood's Medical - Testimony (May 1, 2021)

On Wednesday, April 28, 2021, Master Wang asked me if I would share my medical issue on my kidney. Following my doctor's orders, I changed my eating habits to hopefully improve the functioning of my one kidney.

Late 2001 I found out that I had one (1) functioning kidney. My other kidney was not functioning due to a blockage in the blood vessel supplying it, which couldn't be opened by placing a stint in the vessel. The doctor said fortunately I have one (1) good kidney doing the work for two (2) kidneys. He stated I could have a normal life just watch my Potassium intake .

In Sept. 2020 thru blood work, I found out that my one (1) functioning kidney was not working as it was in 2001. My family doctor said I should consult with a Nephrologist (kidney doctor), which I did. Through a series of Renal Scans and Renal Ultrasounds, it was determined my one (1) functioning kidney was operating, but with limited capacity for filtration. Fortunately I did not need a kidney transplant nor dialysis.

In Dec. 2020, I met with my Nephrologist again after blood work was taken and he recommended I limit my protein intake. He did not quantify this amount of protein intake.

Later in Dec. 2020, I decided to consult with a Registered Dietitian, who recommended to me a basic Renal diet of sorts limiting Sodium, Potassium and Protein. I immediately started a daily meal diary indicating contents of Sodium, Potassium and Protein for foods eaten that particular day.

In Mar. 2021, after following the recommendations of my Registered Dietitian on proper foods to eat, blood work was done again for the Nephrologist. I found now that my Creatinine, BUN and GFR (Glomulus Filtration Rate) all had improved over a three (3) month period.

My GFR went from 46 to 55.

In summary, my Nephrologist was surprised at the improvement on my one (1) functioning kidney. This confirmed to me that eating the correct foods in proper proportions is essential to good health.

I personally thank Master Wang for his encouraging words about good eating habits and how it can have a profound effect on your personal health.

T-Shirt days

Wednesday & Saturday class

(Unless if we have special event, rank test, demonstration need to be in full uniform).

TAI – CHI – CHUAN - Testimony

Since earning (2nd) Black Belt in Tai – Chi – Chuan on 27 February 2016 from Master Wang – Wang's Martial Arts, I decided I wanted to reach out and give back to the community by teaching Tai – Chi classes at Retirement Centers in Kingwood, Texas.

Currently I am teaching four (4) times a month or once per week at Watercrest Retirement Center and eight (8) times per month or twice per week at Brookdale Retirement Center. Both facilities are in Kingwood, Texas.

It is personally gratifying to me to see other people's personal health and well being changed for the better as a result of practicing Tai – Chi.

Elderberry Fights Flu Symptoms

By Dr. Mehmet Oz and Dr. Mike Roizen, MDs

Pliny the Elder was a first century Roman author and naturalist. One of his most famous sayings is: "Truth comes out in wine."

Did he know about elderberry wine? Being a naturalist (and Roman), there's a good chance he did. After all, the health benefits of elderberry syrup for treating the symptoms of the flu have been anecdotally cited since before his time.

But it's only in the last 20 years that the medicinal properties of the elderberry have been scientifically documented.

- A small study published in 1998 showed that 93 percent of flu patients given elderberry syrup (Sambucol) were completely symptom-free within two days, while those taking a placebo recovered in about six days.
- Another controlled study from 1999-2000 in Norway reported that flu patients taking three teaspoons of elderberry syrup four times a day saw their symptoms improve four days earlier than others who took a placebo.
- And a randomized, double-blind trial in 2009 found that 48 hours after flu sufferers took elderberry extract, 28 percent of them were devoid of all flu symptoms and 60 percent showed some symptom relief. Not a single patient in the placebo control group showed any relief.

Elderberries are more bitter than blackberries or raspberries, which is why they're distilled into wines or baked in pies in combination with other berries.

But the concentrated syrup is what you want if you have flu symptoms. As the American Nutrition Association states, "Elderberry extract seems to offer an efficient, safe and cost-effective treatment for influenza."

Raw fruit and vegetables provide better mental health outcomes

5 REASONS TO GO VEGETARIAN

IF YOU FIND YOURSELF FEELING CONSTANTLY SLUGGISH, IT MAY BE A SIGN TO SWITCH DIET, SO HERE ARE SOME REASONS TO GO VEGETARIAN...

1. REDUCES RISK OF HEART DISEASE

Meat clogs up arteries to stop blood getting to the heart.

Salads don't.

2. HELPS YOU LOSE WEIGHT

Because of the fat they have in them, meat puts weight on a person's body.

Salads don't.

3. COMPASSION FOR ANIMALS

Meat comes from animals.

Salads don't.

4. BEING VEGETARIAN WOULD HELP END WORLD HUNGER

The animals that the meat comes from need loads of food to be fattened up. Salads don't. That food could go to people who need it.

5. BEING VEGETARIAN SETS A GOOD EXAMPLE TO THE YOUNGER GENERATION

By seeing adults refusing to eat meat, kids may do the same and could adopt a healthy lifestyle, seriously reducing the risk of heart disease and cancer later in life. While feeding little ones meat is quick and easy, it can create a detrimental effect on their health.

Salads don't.

What are the benefits of a clean diet?

We live in a fast paced environment, which spoiled us when it comes to eating. We are always on the go and society has made it a norm to eat on the go. About half of your day is spent in your vehicle, and well you also get hungry. It is now so easy to order food without having to get off your car and just eat it on the go. Have you stopped and asked yourself what really goes into all of these foods? Like they say, "you are what you eat". Sure we make healthier choices when we grocery shopping, but are they really a healthy choice?

It is so easy to fall off the wagon and start "next Monday" with the clean eating, is it worth the risk of waiting? Why not start now? Nowadays, we have so many options to transition into a healthy clean diet. Organic fruits, vegetables, and pastas are now a choice.

No one tells us the risks of eating veggies and fruits that are exposed to pesticides, the effects it can have in your organs nor the permanent damage something so minimal can do. They might be a little more expensive when purchasing but in the long run it will be cheaper for your health.

Veggie beef, veggie poultry and veggie fish are also part of this trend.

Farm animals are also fattened and exposed to chemicals while alive and dead. In order to maintain their shelf life, they must be put through a number of chemicals to preserve its shape, color, and texture.

One cannot quit a habit from one day to another, therefore we must slowly transition our minds and body into a healthier and cleaner lifestyle.

What are the benefits of a Clean Healthy Eating?

- Lowers the risks of Cancer
- Lowers risks of Diabetes
- Prevents (In some cases reverses) Heart disease
- Helps with Weight Loss
- Expands life expectancy
- Less animals are harmed every day.

Accidental Food Poisoning

By Elmer Whitehead Jr.

2nd Degree Black Belt

May 19, 2021

It was a normal evening in May at the Whitehead house. We are always asking, “What is for dinner?” and “Who is cooking?” On this evening, the lots fell to a classic Whitehead dish, spaghetti, and my wife.

While my two daughters and I were moving around completing other chores, my wife began cooking dinner. From the corner of my eye, nothing looked out of the ordinary. I watched her brown and season the meat in the skillet. I watched her boil the pasta in a pot and then drain it in a strainer. She then poured the marinara sauce on the meat and stirred in the pasta. As the spaghetti was being finalized, I could smell the aroma of the buttered garlic bread baking in the oven. I prepared the drinks as we sat down to eat around 6 PM. We arose from the table saying, “That was the best spaghetti we ever had”.

By 10 PM, the drama began! To make a long story short, my stomach was upset! It was intent on emptying its’ contents by any means necessary! This began the bouts of vomiting and diarrhea. By 3 AM, my youngest daughter and wife joined the party. By 6 AM my older daughter followed suit. They were fine within a day. My bouts continued for three days.

On the third day, I was supposed to go to Kung Fu class. I knew I was not up to the task, so I called Master Wang to tell him I would not be able to make it. When I explained why, he informed me about how activated charcoal could help settle my stomach and stop the bouts of vomiting and diarrhea. After three days of bouts with no end in sight, I was ready to try anything!

I bought activated charcoal capsules from a health food store later that day. Within 4 to 6 hours, my bouts finally ended! I subsequently did a little reading on it and activated charcoal is generally used at the first signs of stomach discomfort. The capsules are taken whole and swallowed with a cup of water.

My only regret is that I didn’t call Master Wang a few days earlier! I now have a bottle at home that is ready to be used should the next event occurs – which, I hope is no time soon.
